Dear Parents, Carers and community members,

Book Week Celebration Day

Yesterday we were lucky enough to spend the day with literary characters from Alice who came straight from Wonderland, to Bruce the Shark of finding Finding Nemo Fame and The Wild Colonial Boy himself, Jack Doolan. The children, teachers and staff were taken on a literary journey, learning all day whilst exploring texts, creating amazing works of art and generally sharing our love and appreciation of literature.

Children loved spending the day exploring the works of local author, Katherine Apel, Under the guidance of Kat the junior school reenacted her story, “This is the Mud” and the upper school explored the devices used to “illustrate her words” in the verse novel “Bully on the Bus”.

Congratulations to the Prize winners as follows:

Best Costumes:

- Adoormouse – DJ Turner
- Goosebumps Werewolf- Dylan Jacobi
- The Waterbabies “Tom” – Mereki Turner
- My Mum is a Doctor – Holly Elliott
- Wild Colonial Boy “Jack Doolan” – Joel Barnett
- Alice from Wonderland- Lakarri Turner

Best Scraffito

- Scott Fleming, Alivia Davis, Anna Wellsteed

Match the teacher to the book:

- Alivia Davis
Thank you to Mrs Barnett and Mrs Wellsteed for organising a wonderful and eventful day and all staff for assisting with rotations.
Teacher Aide Day – Friday 5th September
This Friday we celebrate the wonderful work our Teacher Aides undertake at Wartburg State School. Without the assistance of these wonderful people our classrooms/school would not run as smoothly as it does, nor would teachers be able to address individual learning needs as specifically as they can with the help of our aides.

On behalf of the WSS staff, students and parents: THANK-YOU TA’s for all you contribute to our school!

Attendance
Our current school attendance rate: 89.8%
Goal: 92%
* P/1 Class attendance rate- 86.67%
* 2/3/4 Class attendance rate – 87.3%
* 5/6/7 Class attendance rate – 93.44%

4-7 Surf Camp
This year student in years 4-7 are invited to attend a surf camp. Instead of travelling weekly to Agnes to attend surf lessons students will be staying there for the week and participating in surf lessons and other recreational activities including a ride on the LARC and snorkeling at Lady Musgrave. Great value! Cost per student is $200. You will find an invoice and a camp participation permission attached to this newsletter for you to return to school by Wednesday 10th September with at least a deposit. This year’s camp is partially subsidized by the P&C and School.

Athletics Cluster Age Champions

Happy Birthday
Happy birthday to
Jasmine 4th
Ryder 4th
Jess 7th
Mereki 11th
Djarrawi 13th
Sera 13th
Nikita 14th

who are celebrating their birthdays.
BERT HINKLER DOCUMENTARY

YEAR 2-4 Have been following up our excursion to Bundaberg by making a video documentary, in which students take on the character of someone in the early 1900s and tell the story of their relationship with Bert. Here are two transcripts from our documentary.

My name is James Potter and I live in New Zealand where it is cold. I am 28 and work at a factory in Napier and makes clothes out of sheep skin. I get paid 20 shelling per hour. I’m saving to buy a house in Australia so I can make money to afford a house. I am lucky. I was so lucky I heard the famous Bert Hinkler on the radio and how he was the first one to fly a plane at Mon Repos beach in his small glider in 1912. I started reading about Bert Hinkler and his experiments on his planes, how the Puss Moth and the Ibis were his inventions. He also was studying birds, especially the Ibis. When Bert Hinkler best his own record by flying a plane, he flew it from England to Italy, I was amazed. When Bert died in Italy, Florence, it was a sad day. Bert slipped out of the plane when he crashed on the cold snowy mountains and when Bert died everyone went to the funeral. There were a lot of sad faces. Everyone laid flowers down to the famous Bert Hinkler. Bert was the first one to fly a plane in the sky for 9 hours, when it had never been tested. I can’t believe he did it. He still lives by his cool inventions like the Ibis. By Ashton Davis.

I am Bella and I live in Bundaberg. I am 28 and I stay at home and look after the kids. I love living in Bundaberg and I saw Bert land the plane at Bundaberg on 11 April when he flew from Sydney to Bundaberg in 1928. Bert flew his Avro Avian from England to Australia. I hope Bert wins an award because he is a very good flier. By Lillielle Kelly.

ELECTRONIC STUDENT BANKING

The Commonwealth Bank offers children less than 12 years of age a banking system through the school. Banking is usually completed on a Wednesday. Forms and information are available through the office.

Waiting for the ball games to begin.....
Bundaberg Region Community Outreach Play Van Program 2014

You are invited to attend the mobile Play Van Playgroup experience for children aged 0-5 years and their parents, grandparents & carers.

The Play Van is loaded with play equipment, trikes, craft activities, puzzles, sensory activities, toy trains, cars, a dolls house, kitchen play equipment, story books & cushions, and engaging toys for young babies too.

The Play Van is coming to visit:

ROSEDALE STATE SCHOOL
21 James Street, Rosedale
On
THURSDAY 11th SEPTEMBER 2014
9:30am – 11:30am

There is no need to register. Just come along on the day.
Morning Tea will be provided.
(Please advise us of any allergies or dietary requirements.)

For more information about the Play Van visit to Rosedale,
Please contact Sonya Weir on (07) 4156 5777 or visit the Rosedale State School: P-12 Campus Facebook Page.

The Outreach Play Van is proudly supported by the Bundaberg & District Neighbourhood Centre and funded by Bundaberg Community Development Inc. and Bundaberg Child & Family Centre.

For more information about how you can engage the Outreach Play Van in your community, please contact the Bundaberg & District Neighbourhood Centre on (07) 4153 1614 or info@kenalwynbnc.org.au
CHESS INFORMATION

1. Improved cognitive function:

Playing chess has been shown to improve the quality of neural connections throughout the brain, increasing processing power and improving the performance of the brain's computer-like system.

2. Exercises both sides of the brain:

A medical study involving 400 centers by the Albert Einstein College of Medicine showed that playing chess, which stimulates both hemispheres of the brain, measurably decreases the risk of dementia and combats its symptoms. Instead of relying on the brain's dominant hemisphere, the frontal lobe, the brain's 

3. Prevents Alzheimer's disease:

A study involving 400 centers by the Albert Einstein College of Medicine showed that playing chess, which stimulates both hemispheres of the brain, measurably decreases the risk of dementia and combats its symptoms. Instead of relying on the brain's dominant hemisphere, the frontal lobe, the brain's

4. Helps treat schizophrenia:

A study involving 400 centers by the Albert Einstein College of Medicine showed that playing chess, which stimulates both hemispheres of the brain, measurably decreases the risk of dementia and combats its symptoms. Instead of relying on the brain's dominant hemisphere, the frontal lobe, the brain's

5. Improves children's thinking and problem-solving skills:

A study involving 400 centers by the Albert Einstein College of Medicine showed that playing chess, which stimulates both hemispheres of the brain, measurably decreases the risk of dementia and combats its symptoms. Instead of relying on the brain's dominant hemisphere, the frontal lobe, the brain's

6. Builds self-confidence:

A study involving 400 centers by the Albert Einstein College of Medicine showed that playing chess, which stimulates both hemispheres of the brain, measurably decreases the risk of dementia and combats its symptoms. Instead of relying on the brain's dominant hemisphere, the frontal lobe, the brain's

7. Helps with rehabilitation and therapy:

A study involving 400 centers by the Albert Einstein College of Medicine showed that playing chess, which stimulates both hemispheres of the brain, measurably decreases the risk of dementia and combats its symptoms. Instead of relying on the brain's dominant hemisphere, the frontal lobe, the brain's

Chess can be used to help rehabilitate patients recovering from stroke or other physical disabilities, as well as improve cognitive function through the use of memory and spatial awareness. Playing chess has been shown to improve mental agility and increase the level of mental strength and confidence that you bring to the world beyond the chessboard.

With these models that include the young Washingtonian chess player Megan Carson as well as other prominent chess players, the game of chess can be seen to captivate and excite every generation. But no matter what your age, playing chess will build you to a new form. When you play, you're on your own, and you're never alone. You have to think and analyze just where you are in the game and play.
