

# FLOOD

What a great Australia day... **Not!** This Australia day was a very **WET** one. Wartburg State School was a little island; we couldn't go to school for a week. It was flooding rapidly for ten days. When the floods were over there was a lot of damage done to houses and the shops were all flooded.

The very good thing about Baffle Creek is that people care for our community. There were a lot of donations like cooking, furniture, cars and clothing. My friend Chloe's mum Julie Elliot and her nana Pat Elliot donated two goody bags to each child and we were very grateful for that so thank you. They gave lunch boxes, water bottles, bags and other stuff.

The floods were very bad but I think it's brought our community closer to each other.
