

# Flood

I went across the road and went fishing for spangle perch. We caught four of them.

The next day I went to Caileb's house for a sleep over but on the way our driveway had huge holes and ditches in it so I went on my push bike to their house.

We swam across to the blue shops and got some food and drinks. On the way there I got bitten by heaps of spiders. The next day I went home. I went to the end of the road. There was water coming from mountains and a dam full of fish. I wanted to set a cast net but Mum said no. Mum took us in the car to show us the flood. We were dumbfounded to see how far the water was up. The road had big air bubbles in it. It was really cool.
